#### Reasons for granting it

#### Urgent unforeseeable circumstances

The COVID-19 outbreak has resulted in drastic travel restrictions and closure of borders between a majority of States.

- Holders of Part-FCL pilot licences who are required to perform their licence proficiency check (LPC) to revalidate the validity period of their class ratings, type ratings, instrument and mountain ratings are not able to timely reach or gain access to aircraft or flight simulation training devices (FSTDs) or examiners to complete the necessary flights, training and checking. Additionally, these pilots are not able to timely get access to an examination for maintaining their language proficiency. This would result in expiry of their ratings and the language proficiency endorsement.
- Holders of LAPLs, BPLs, SPLs as well as of mountain ratings or sailplane cloud flying ratings are not able to maintain recent experience related to their privileges.
- Holders of Part-FCL instructor and examiner certificates who are required to perform an assessment of competence or attend a refresher course or seminar to revalidate their instructor or examiner privileges in order to continue to exercise their training and checking privileges are not able to timely reach or gain access to aircraft or FSTDs to complete the necessary assessment of competence or attend the refresher course or seminar. This would result in expiry of said certificate.
- Holders of Part-MED medical certificates who are required

		<p>to undergo a recurrent medical examination to revalidate their medical certificate to continue to exercise their licence or certificate privileges are not able to timely reach or gain access to an aeromedical examiner (AME) or aeromedical centre (AeMC) to complete the necessary medical examination. In addition, in many cases medical examiners have been reassigned to support the COVID-19 outbreak in their State. This would result in expiry of said certificates.</p> <ul style="list-style-type: none"> <li>• Holders of aeromedical examiner certificates as per (Part-MED) to Regulation 1178/2011 who are required to perform medical examinations of the applicants for a medical certificate in order to revalidate their relevant AME privileges are not able to timely reach or gain access to their competent authorities. This would result in expiry of said certificates.</li> <li>• Applicants for the issue of a licence or an instrument rating are not able to timely reach the competent authority to complete theoretical knowledge examinations within the time periods specified in points (a)(3) and (b)(2) of point FCL.025 of Part-FCL.</li> <li>• After completion of theoretical knowledge examinations, applicants for the issue of a licence or an instrument rating are not able to access training facilities and training aircraft or FSTDs in order continue with practical training within the time periods specified in point FCL.025(c)(1) of Part-FCL.</li> <li>• Applicants for a class or a type rating are not able to access training facilities as well as training aircraft or FSTDs in order to comply with the second subparagraph of point FCL.725(c) of Part-FCL.</li> </ul>
	<b>Urgent operational needs</b>	<p>As a result of the extreme operational and resource constraints caused by the COVID-19 outbreak, it is needed to apply this exemption to holders of European licences, ratings, endorsement and certificates when the CA is informed about the said circumstances, either by the holder of the licence, rating, endorsement or certificate or by the training organisation of the applicant(s), as applicable. This Exemption aims to reduce the severity of the disruptions and consequent negative impacts on general aviation.</p>
